PROFILE

Hello! I'm Cristian Arando, a student of Systems Engineering at the Universidad Mayor de San Simón (UMSS), currently in my final semester of the program. Throughout my education, I have gained knowledge in programming, databases, and Scrum methodology, among other fundamental aspects in the world of technology.

My main interest lies in web application development. I have had the opportunity to explore and learn self-taught technologies such as Javascript and React. I have also delved into the use of Django, a powerful tool for creating robust and secure web applications.

I am constantly motivated by the desire to improve my skills and knowledge. I aspire to take an active role in the exciting software development sector, harnessing technological advancements and tackling the challenges that this field offers.

ACADEMIC BACKGROUND

Universidad Mayor de San Simón

Student of Systems Engineering

2019-Present

Francisco Gonzales Prada School

Student with Academic Excellence

Completed 2018

ADDITIONAL EDUCATION

Cisco Networking Academy

CCNA 1, CCNA 2 y CCNA 3

2019-Present

EscuelaIT

Software Fundamentals, Java, UML, XP

Completed 2023

Certifications

- Modern JavaScript - DevTalles
- Advanced Linux - Mastermind
- Advanced Git - Mastermind
- NoSQL Databases with MongoDB and Node.js - Mastermind
- Fundamentals of Programming with Node.js - Mastermind
- Agile with Atlassian Jira - Coursera
- Version Control with Git - Coursera
